

HASAN MAHMUD

Computer Science Student & Competitive Programmer

hasanmahmud25910@gmail.com | GitHub | LeetCode | Codeforces

PROFILE

Third-year Computer Science and Engineering student at CUET with a strong interest in competitive programming, algorithmic problem-solving, and building efficient web applications. Enjoys turning complex challenges into clean, practical solutions while continuously improving through projects and online judges.

EDUCATION

Chittagong University of Engineering & Technology (CUET) | Expected 2027

B.Sc. in Computer Science and Engineering (CSE) | 3rd Year

TECHNICAL SKILLS

Programming: C, C++, Python, JavaScript, TypeScript

Web: HTML, CSS, responsive interfaces, browser-based applications

Database: SQL, MySQL

Tools: Git, GitHub, Vercel

Core: Data structures, algorithms, competitive programming, problem solving

COMPETITIVE PROGRAMMING

- LeetCode: 226 problems solved (177 Easy, 49 Medium); global rank 719,169; primary languages include C++ and MySQL.
- Codeforces: Newbie; current rating 738, maximum rating 869; 283 unique problems solved.

PROJECTS

Tic Tac Toe Game | HTML, CSS, JavaScript | [Live Demo](#) | [Source](#)

- Built a browser-based two-player game with turn switching, winner detection, and disabled completed cells.
- Added new-game and reset controls for a complete replay flow.

Rock Paper Scissors | HTML, CSS, JavaScript | [Live Demo](#)

- Created an interactive game with randomized computer choices and real-time user/computer score tracking.
- Implemented win, loss, and draw states with clear visual feedback.
